

# Security Selection

Rob Hayward

March 6, 2014

## **1 Introduction**

Once the asset allocation has been completed, it is possible to look at how the money within each asset class is distributed between individual investments. This section will allow you to implement some of the valuation methods that you have learnt in Corporate Analysis (FA284) and Finance (FN282).

## **2 Stock selection**

Once you have allocated money to be invested in
